## Kick Plate Installation & Cleaning

### PREPARATION

A. General: Prior to installation, clean substrate to remove dust, debris and loose particles.

### INSTALLATION

A. General: Locate the kickplate as indicated on the approved detail drawing for the appropriate substrate and in compliance with the TheKickPlateStore.com installation instructions. Install kickplate level and plumb at the height indicated on the drawings.

B. Installation of Stainless Steel, Aluminum, Brass and Diamond Plate Kickplate

1. Surface must be dry, clean and properly sealed.
2. Cement on - Apply a bead of Heavy-Duty Adhesive in a zig zag pattern over the back of the kickplate. Position kickplate on the door and apply pressure until a tight fit is achieved.
3. Screw on - Position the kickplate on the wall and attach it using the supplied stainless steel screws.
4. Remove the protective plastic covering from the exposed surface of the kickplate.

### CLEANING

A. At completion of the installation, clean surface in accordance with the TheKickPlateStore cleanup and maintenance instructions
